

North Sea Terminal Bremerhaven GmbH & Co.

Reference tariff

Valid from 01.01.2024

General regulations

All rates as per this reference scale of charges are based on the present legal provisions for the performance of the respective services. If new or amended legal provisions come into force after introduction of this reference scale of charges that put NTB in position to perform such services in a way that requires increased expenditure or additional measures, NTB shall be entitled to increase the respective rate or implement a charge covering the increased expenditures or additional measures to an appropriate extent.

Sale of small material is possible – see item 11. Sale of small material.

Any service performed by NTB will be subject to the currently valid terms, rules and regulations of the "Allgemeine Geschäftsbedingungen und Betriebsordnung (AGBO)" of NTB, unless otherwise agreed in writing.

All handling charges of the reference tariff will be charged per movement, except where otherwise specified.

Minimum charge: EUR 55,00 unless otherwise agreed in writing.

1,5 % social fund will be charged for all services performed (with the exception of demurrage charges and security surcharge).

All invoices are payable immediately without deduction. In case of default NTB will charge default interest based on the base interest rate of BGB (§247 Bürgerliches Gesetzbuch/German Civil Code) plus 5 %.

Please quote invoice number and customer account number when making payments.

Cargo handling such as unpacking and reloading will be handled by external service providers. A surcharge of 20 % will be added to the corresponding invoice as administrative fee.

The above mentioned specifications refer to the usual services of container handling. Container means any standard or special 20', 40' or 45' container with ISO fittings including flatracks which can be handled by means of the normal use of container spreaders. For the handling of conventional cargo other tariff rates are valid. Please ask in particular cases.

All fees are net amounts in compliance with the Value Added Tax (VAT).
